

# Decatur Beach Science in August!

Come join the seining fun and find out what lives just off the shores of the outer beach near Decatur Head.

**Saturday, August 6<sup>th</sup> at 2:00** we will meet at the outer beach (near the pirate ship) with local scientists from Kwiaht ([www.kwiaht.org](http://www.kwiaht.org)). We will fish using our 80 foot seining net in order to “see what’s out there.” The goal is to add to our database of what lives on (and around) Decatur Island.

**Come help pull in the net and have fun learning about all the fish!**

**Everyone is welcome!**
